

On Wall Street, in the culture of high tech, in American government: Libertarianismâ€™”the simple but radical idea that the only purpose of government is to protect its citizens and their property against direct violence and threatâ€™” has become an extremely influential strain of thought. But while many books talk about libertarian ideas, none until now has explored the history of this uniquely American movementâ€™”where and who it came from, how it evolved, and what impact it has had on our country. In this revelatory book, based on original research and interviews with more than 100 key sources, Brian Doherty traces the evolution of the movement through the unconventional life stories of its most influential leadersâ€™” Ludwig von Mises, F.A. Hayek, Ayn Rand, Murray Rothbard, and Milton Friedmanâ€™”and through the personal battles, character flaws, love affairs, and historical events that altered its course. And by doing so, he provides a fascinating new perspective on American historyâ€™”from the New Deal through the culture wars of the 1960s to today's most divisive political issues. Neither an expose nor a political polemic, this entertaining historical narrative will enlighten anyone interested in American politics.

Carp Baits (Carp in Depth), Logistics in manufacturing company during the crisis, American Antique Furniture 2 Volumes, Transnationale Altersmigration in Europa: Sozialgeographische und gerontologische Perspektiven (German Edition), I Think I Can, I Think I Can, Creative Problem Solving in School Mathematics, Two Studies in International Law, Heidi: What Katy Did at School,
