

**NICHOLAS HAS LIVED A LIFE OF DECEPTION** Like Analise Michaels, Nicholas Zahn can travel in his sleep and communicate with angels. But, he didn't have these abilities from birth...he acquired them and many other abilities when he died...and then came back to life. Shortly after his near-death experience at the age of five, Nicholas could see people around him who were on the cusp of death. He heard other people's thoughts. His abilities brought him to the attention of the police and local media which in turn brought him to the attention of some less desirable organizations. Only a few weeks after his sixth birthday, Nicholas was abducted by a covert agency. He has spent his life in a string of educational facilities receiving training in an array of skills: remote viewing, astral travel, mind control, physical combat, weaponry, psychic development and protection – everything a young boy needs. In his memoir, Nicholas reflects on some of his experiences in the midst of the powerful reunion between Analise and her biological mother. Their reunion stirs some deep longing within him and he finally uncovers the truth that lay hidden within the shadows of deception.
