

This is a book that contains odd ways to make money- period- either as your prime source of income or simply a supplement to it. Right out of the gate let me say that I have tried to gear this book towards the concept that you are someone living on the streets with few resources. And the ideas to make money can be done in any economy in the U.S.- good or bad. What you will discover is that the money making ideas within the book can be done practically by any adult (even handicapped persons, in most cases), regardless of actual living conditions and/or resources. So if you are not "homeless", you will have a leg-up in using the money making ideas- meaning you will in many cases face fewer obstacles in your endeavors to make some cash. This book was written by a man who found himself homeless in his early 20s and at age 45 retired and is now living a couple of miles from the Gulf of Mexico. He decided to share with others his own experiences and insight on how to make money, especially for persons with little or no resources. Also included are practical tips for success. In his own words: From a practical standpoint, I will say this to you: if today I was transported to someplace unknown to me and I had no money in my pockets, I could use this book to survive AND thrive. That pretty much says it all- if you want to be like he, then buy this book and get ahead in this world, no matter what the economic situation in the U.S. is.
